

LAKE CHICOT STATE PARK

Lake Chicot is an oxbow lake. What does oxbow mean? Have an older sibling or a parent help you to look up the meaning of oxbow in a dictionary or on the Internet.

Write its definition here:

Oxbow-

Now let's draw a picture of Lake Chicot.

You will need a:

ruler, pencil and a sheet of paper

Use the ruler to measure 1 inch on your paper. Use your pencil to mark the inch. You are going to measure four more inches (one at a time) and mark them so that the marks create an oxbow (or U) shape. When you are finished measuring, take a pencil and connect all of your marks so that they create a "fat U."

Color in the lake and add pictures of the wildlife you might find at Lake Chicot State Park.

Oxbow - a bow-shaped lake formed in a former channel of a river.
